

U.S. Patent Appln. Ser. No. 10/625,605
Amendment and Response to Office Action dated May 19, 2005
September 19, 2005
Attorney Docket No. 60783.000005

AMENDMENTS TO THE SPECIFICATION:

Please amend the Specification as follows:

Please replace the paragraph beginning on p. 6, line 9 with the following:

Colombian Patent No. 25357 issued to Peisach Alberto, titled "Moving Bottom Container," the disclosure of which is hereby incorporated by reference in a manner consistent with this disclosure, discloses a formed plastic container having a base design that collapses to compensate for changes in pressure due to the effect of changes in the height relative to sea-level during transport, storage and sale of the packed containers.

Please replace the paragraph beginning on p. 20, line 20 with the following:

A four ounce cup was made according to the invention that corresponds to the cup depicted in Fig. [[1]] 2 by the thermoforming process. The place of manufacture was Medellin, Colombia, having an altitude above sea level of about 6500 feet. Note that the forming conditions should be adjusted according to the ambient conditions of the location of the manufacturing facility.
